

Header Suggestion: The 'All Natural' 'Ten Commandments

Suggested Text:

San Antonio artist Tracy Potts, who recreated the world's first wholly authentic tablets of the Ten Commandments [hashemartworks.net], is now conducting day-long seminars in which he can teach you, inside of a day, how to read and how to write (in your own handwriting) the Ten Commandments exactly as they were given in the ancient Hebrew at Mt. Sinai.

The seminar's "all natural" theme is based on the paradigm-altering revelation that the "ancient" language (of Genesis 11:1) alphabet letter shapes are actually exact depictions of the human anatomy of speech where the exact sound associated with each letter is actually produced. That the "ancient" alphabet is "set up" like that makes the language on Moses' two stone tablets purely phonetic, and therefore, entirely self pronouncing!

By the end of the day you will have an intimate familiarity with the Ten Commandments in their "all natural" state; and because the letters that comprise them are derived from out of the human body itself, you'll never be able to forget what you learn!

The next seminar is Saturday, Nov. 20, from 9am - 5pm, at the Center for Life, and is limited to the first 15 who sign up. Cost: \$75 which includes the wealth of materials and references. For more info, or to register, call (210) 867-1869 or e-mail info@hashemartworks.net.
